President and CEO of LEI Companies Receives IEC National 40 under 40 Award

Local contractor receives the first-ever IEC National Award

DENVER, COLORADO – September 1, 2015 – The Independent Electrical Contractors (IEC) recently announced the winners of its first-ever IEC National 40 under 40 award. This award recognizes IEC members and staff under the age of 40 who have made an impact on the electrical industry.

Among the honorees of this distinguished award is Brandon J. Berumen, President and CEO of LEI Companies. Brandon and his sister Lenee Koch founded the company in 2002 and have successfully achieved a steady period of growth and profitability since their humble beginnings with only four personnel to a current workforce of just over 200.

Brandon's approach to business and commitment to leading edge technology sets his company apart in the local market. This level of operation has led to numerous awards and recognition over the years.

LEI's ongoing success is also demonstrated by their recent graduation from the Denver Small Business Opportunity (DSBO) MBE, DBE and SBE programs which serve to help small businesses develop and grow their companies. Brandon successfully leveraged the resources available through the program and propelled his organization to the next level.

###

LEI Companies, Inc. is a leading edge Denver based electrical contractor and energy solution provider founded in 2002. Their team of professionals specialize in complex renovations, new construction and special systems including fire alarm and building automation. As a thriving, quality organization, LEI is committed to employee growth and development. For more information, please visit www.leicompanies.com or call Lenee Koch at (303) 865-5211.
