2021 IECRM Summit Awards Nomination Form

Welcome to the 15th Annual IECRM Summit Awards! These prestigious awards recognize individual, team and project excellence in the electrical construction, solar, low voltage and renewable energy fields.

Please submit your nominations using this simple online form. You will be asked to complete information regarding the project, company or individual being nominated, and will have the opportunity to upload supporting documents in addition to the written summary of the award nomination. The IECRM Summit Awards are a wonderful way to highlight company achievement and recognize company employees for spotlighting “that’s my project!”

You may print a pdf of the online form to help prepare your submission. Click the following link to download printable pdf:

<https://iecrm.org/wp-content/uploads/2020/04/2020-IECRM-Summit-Awards-NominationForm.pdf>

Please Note: All nominations must be completed and submitted online. If you are a first time nominee or need assistance, please contact nominations@iecrm.org for a thirty minute free awards consulting session.

A company may submit more than one entry or nomination, and in more than one category. A separate, completed Entry Form is required for each submission.

All projects must have been COMPLETED between March 1, 2020 and March 15, 2021. There is no geographic limitation on the location of the project submitted. Entries must be made by an IECRM contractor member or industry partner in good standing.

Nominations will be accepted until 11:59pm on Monday, March 22nd, 2021.

How to complete your nomination(s): You may start and stop then resume completing the form, but you will need to keep the window open. If you close out, the data is not saved.

Nomination Categories

Electrical Project and Company Awards:

Nominate your company's AWARD FOR PROJECT EXCELLENCE in:

- Residential Construction
- Commercial Construction
- Industrial & Infrastructure Construction
- Energy Efficiency and Green Construction
- Low Voltage / Limited Energy / Systems Automation & Controls Construction • Collaboration Award – Showcase the Teamwork of an IECRM Electrical Contractor Member & Industry Partner
- Innovation Award – Showcase a Project, Technology, Business Solutions Achievement

Multiple awards are distributed in each category. There is no project too large or too small. All project sizes are welcome and encouraged for submission.

Individual & Team Awards:

Nominate an individual or company for EXCELLENCE in:

- Electrical Service Award
- Safety Award
- NEW! IECRM Alumni Award
- General Contractor of the Year
- NEW! Superstar Superintendents & Project Managers Recognition
- NEW! Superstar Support Services Staff Recognition
- Workforce Development Award
- Community Service Award

* Required

* 1. I'm nominating for (select one):

Electrical Project and Company Awards **Skip to page 3**

Individual & Team Awards **Skip to page 4**

Electrical Project and Company Awards:

Nominate an electrical construction project or company that demonstrates excellence in the categories of residential, commercial, industrial & infrastructure, solar, energy efficiency, and/or green construction, low-voltage, limited energy, systems automation & controls construction. Multiple awards will be distributed in each category based on project size. No project is too big or too small. All project sizes are welcome and encouraged for submission.

* 2. Categories (select one):

- Residential (includes custom single family, single family community development, and multi-family including multi-family less than 3 stories, more than 3 stories and senior housing facilities) **Skip to page 5**
- Commercial (includes office buildings, institutions, banks, restaurants, retail facilities, churches, outdoor lighting, etc.) **Skip to page 7**
- Industrial & Infrastructure (includes manufacturing, processing, utilities, wastewater facilities, transportation, warehouses, etc.) **Skip to page 7**
- Energy Efficiency/ Green Construction (a project that demonstrates innovation, new ideas, and success in energy efficient or green building construction) **Skip to page 6**
- Low-Voltage / Limited Energy / Systems Automation & Controls Construction (a project that exhibits innovation, features, quality, and overall excellence) **Skip to page 8**
- Contractor Member & Industry Partner Collaboration Award - An IECRM Industry Partner and IECRM Electrical Contractor are recognized for their outstanding partnership, contributions and collaboration on a special project, or for consistently demonstrating excellence together in the electrical industry. **Skip to page 24**
- Electrical Industry Innovation Award - An IECRM Electrical Contractor or IECRM Industry Partner is recognized for bringing an innovative business solution, workplace practice, product or technology that benefits or enhances the electrical industry. **Skip to page 25**

Individual & Team Awards:

Each year IECRM recognizes individuals and teams for excellence in the electrical, construction, solar, low voltage and renewable energy fields. Nominate an individual or team that has made outstanding contributions to the industry in a category listed below.

* 3. Categories (select one):

- Electrical Service Award - An IECRM Electrical Contractor company with a service department that exhibits innovation, quality, and overall experience. **Skip to page 10**
- Safety Award - This award recognizes an IECRM Electrical Contractor company that demonstrates safety excellence in the workplace. **Skip to page 11**
- IECRM Alumni Award - The IECRM Alumni Award recognizes an alumnus of the IECRM apprenticeship program who has worked diligently to distinguish him/herself as a leader, mentor, and supporter of IECRM and the electrical industry. Any IECRM member who graduated from the IEC Apprentice Training Program is eligible for this award **Skip to page 26**
- NEW! Superstar Superintendents / Project Managers of the Year Award - Nominated by IECRM Members, this recognition award showcases superintendents and project managers with exceptional leadership / project management skills, professionalism, and work ethic in oversight of projects led by a general or an electrical contractor. **Skip to page 20**
- NEW! Superstar Support Services Staff - Nominated by IECRM Members, this recognition award showcases electrical contractor and industry partner administrative, operations and support staff that are critical to the essential work of the electrical industry, go the extra mile to achieve company goals, and work behind the scenes to get projects over the finish line. These individuals work at all levels of the company **Skip to page 21**
- General Contractor of the Year - Nominated by IECRM members, this award is presented to a General Contractor that demonstrated efficiency, reliability, accuracy, stability, and fairness on the job site and among trade partners. **Skip to page 19**
- Workforce Development Award - This award recognizes an IECRM member company that demonstrates leadership in the workforce development and recruitment of the next generation electrician including women, minorities, Veterans, under-represented or under served populations. Nominees will be recognized for initiatives that promote a diverse and inclusive company culture in the overall workplace including outreach, recruitment, employment, training, and retention. **Skip to page 23**
- Community Service Award - This award is presented to a company, team or individual that demonstrates leadership in community involvement, industry advocacy, volunteer work and/or results in impactful change for the industry or community **Skip to page 22**

Residential Categories

Nominate a residential electrical construction project that demonstrates excellence in the industry.

* 4. Residential Construction Categories (select one):

- Single family residence (including new home, custom construction, home renovation and community development) **Skip to page 8**
- Multi-family residences up to 3 stories, including senior housing facilities **Skip to page 8**
- Multi-family residences mid-rise buildings 3 + stories **Skip to page 8**

Energy & Green Categories

Nominate a project that demonstrates excellence in energy efficiency or green construction. This includes solar, power generation, EV charging stations, energy efficient retrofits, LEED projects, new energy codes and standards.

* 5. Energy Efficiency and Green Construction Categories (select one):

- Energy Efficient Retrofit – any previously constructed building (residential, commercial, or industrial) that has been retrofitted for energy savings and reduced energy consumption. **Skip to page 8**

- LEED Approved Construction – any new project (residential, commercial, or industrial) in which a majority of power usage is designed for energy savings and reduced consumption. Include LEED classification and performance benchmarks in key LEED areas. **Skip to page 8**

- Power Generation – How were old materials recycled? What are the documented energy savings? How long until ROI is achieved? Any new or retrofit project that can demonstrate a greater power generation-than-usage ratio (i.e. wind farm, solar, EV charging stations, etc.). **Skip to page 8**

Project Size

IECRM recognizes excellence in electrical projects. Awards are distributed based on project size. No project is too big or too small. All project sizes are welcome and encouraged for submission.

* 6. Please select the range of your project size:

- Electrical Contract under \$2 Million **Skip to page 8**
- Electrical Contract \$2 Million - \$6 Million **Skip to page 8**
- Electrical Contract \$6 Million - \$10 Million **Skip to page 8**
- Electrical Contract greater than \$10 Million **Skip to page 8**

Award Recipient Company Information

- * 7. Company Name:
- * 8. Primary Contact First Name:
- * 9. Primary Contact Last Name:
- * 10. Primary Contact Phone:
- * 11. Primary Contact Email:

Project Information

- * 12. Name of Project:
- * 13. Project Location (City/State):
- * 14. Name of Client:
- 15. Name of General Contractor
- * 16. Project Completion Date:

Project Description & Details

Please include the scope of work and any innovative aspects of the project or programs relating to management, safety, quality control, environmental consideration, green features, scheduling, value engineering, etc. Please provide a thorough description of the project. Consider: What makes it stand out? What is innovative?

- * 17. Describe the project briefly.
- * 18. Describe the scope of work.
- * 19. Describe the management of the project (safety, budget, timeline, waste minimization, etc.).
- * 20. Describe what makes this project stand out.
- * 21. Were there unique job conditions and / or challenges that presented themselves with this project?
- * 22. How were these conditions / challenges overcome? What innovations were developed to succeed?

Project Photographs Required (3 min - 6 max)

Please upload a minimum of three (3) and maximum of 6 photographs in PDF, DOC, DOCX, PNG, JPG, JPEG, or GIF format of the project. If you have difficulty uploading your files, please email nominations@iecrm.org for assistance with this step.

Safety Award

* 39. In the category of Management Commitment, my company: (Please check all that applies)

- Supports safety
- Actively participates in safety program
- Provides support for safety activities
- Sets objectives and goals
- Requires feedback on our safety program
- Safety is a part of companywide performance appraisals
- Safety is not discussed

* 40. In the category of Management Policy Statement on Safety: (Please check all that applies)

- Safety policy exists
- Safety policy are posted in writing or part of employee handbook
- Safety policies are known by all employees
- Safety policies are contained in separate safety manual
- There are no safety policies

* 41. In the category of Responsibility for Safety Defined, my company:

- Owner and/or Safety Coordinator has full responsibility for a safety program
- Supervisors perform safety activities
- Has provided responsibility for safety in writing for all levels of the firm and stated in a safety manual
- Ensures all employees have responsibilities in a safety program
- No one is responsible for safety

* 42. In the category of Safety Statistics, I/ Management:

- Know(s) what EMR is
- Do(es) not know what EMR is
- Know(s) my company's EMR rate
- Know(s) that my company's EMR is below 1.0
- Knows & reviews the cost of accidents and the impact of the EMR/ LR on the company
- Know(s) the cost of accidents are reported
- Know(s) EMR has shown recent decrease

* 43. In the category of Safety Budget, my company:

- Provides funds for safety activities
- Establishes an annual safety budget that is based on planned programs
- Estimates are made on savings contributed by safety program
- Has no funds for safety program

* 44. In the category of Safety Program Goal - Setting, my company:

- Has a written safety program and goals
- Ensure that written goals & objectives are set to be achieved through the safety program
- Develops a strategy to accomplish these goals
- Discussed and published/distributed goal results annually.
- Requires feedback from those responsible for achieving results to measure performance
- Has no safety program

* 45. In the category of Management Supervisory Meetings:

- My company has a written safety program and goals
- Information is given to supervisors on safety
- Regular safety meetings are held with supervisor/ lead person

- Management gives an overview of safety activity to supervisor/ lead person
- Supervisor gives status report on jobsite activities
- Accidents are reviewed at supervisor meetings
- Near-misses are discussed and investigated
- No information given to supervisors on safety

* 46. In the category of Pre -Jobsite Inspection:

- Pre-site training is required
- Job supervisors are trained in planning for pre-jobsite safety inspections
- Pre-jobsite inspection and planning are required to identify needed safety equipment
- No pre-jobsite inspection but some thought is given to safety prior to starting work
- A checklist is used
- There are no pre-jobsite inspections

* 47. In the category Employee Participation:

- Training is provided for supervisors
- Information is given to supervisors on how to involve employees
- Employees are required to participate in toolbox talks, hazard recognition reporting, site inspection, safety rule development & revision, new hire & formal safety training, and accident investigation
- Procedures are set for employees to participate in activities ranging from training to accident investigators
- Employee suggestions/ comments program
- Employee do not participate

* 48. In the category New Employee Orientation:

- Management's concern for safety is stressed
- A safety orientation is given to new employees
- Employee signs orientation training form
- The orientation program includes safety information
- Orientation includes Lockout/ Tagout, PPE, falls, automobile accidents, and material handling
- A record is kept showing information covered
- There is no safety orientation given to new employees

* 49. In the category Safety Rules:

- There are written company rules
- There are safety rules such as those found in the IEC Safety Manual Guidelines
- All employees are made aware of all safety rules
- Some employees are made aware of safety rules
- Rules are enforced all of the time
- Rules are enforced some of the time
- Rules are updated on an as needed basis
- Supervisors enforce all of the rules and report violations
- Supervisors enforce some of the rules and report violations
- We do not have safety rules

* 50. In the category Ongoing Employee Safety Training (Safety Data Sheets):

- Formal GHS training program
- Some basic formal training
- Safety Training is provided in use of SDS and First Aid/CPR
- Safety Training is provided and documented in use of SDS, First Aid/CPR, hazard recognition, and Lockout/Tagout
- Safety training is provided and documented in areas such as hazard, standard, specific, heavy equipment, personal safety, OSHA, and Lockout/ Tagout
- Training comprehension/ understanding by employees is verified and documented
- My company is unfamiliar with SDS

* 51. In the category Safety Toolbox Meetings:

- Supervisor or Safety Coordinators hold toolbox talks meetings
- Meetings are held monthly for all employees; topics and attendance records are documented and maintained
- Employees participate openly
- Management attends occasionally
- We do not hold toolbox talks

* 52. In the category Inspections:

- Jobsite inspections made by supervisor/employee or management weekly

- Monthly jobsite inspections made by supervisor or management
- Jobsite inspections made occasionally by supervisor and/or employee
- Site inspections done by independent source and/ or Safety Director
- Critical safety items are identified and checked
- Discoveries are classified according to seriousness
- Target dates are set for corrective follow-up action
- We do not perform inspections

* 53. In the category Supervisory Training:

- Company has in-house facilities for training or has good outside source for training
- All supervisors sent to outside training courses
- Some supervisors sent to outside training course
- Supervisor training in hazard communication, First Aid/ CPR, emergency reporting, jobsite inspections, accident investigations, job safety analysis and planning, conducting meetings, and supervisor skills
- Supervisors attend OSHA 10-Hour Course
- Supervisors have access to a safety professional
- We do not have supervisor training

* 54. In the category Accident Investigation:

- Supervisor trained to conduct investigations
- Formal investigation by supervisor and written report made
- Investigations made by supervisor
- Safety personnel involved in all investigations
- Management reviews all investigation reports
- Information on "serious" incidents are shared with employees
- Basic causes of accidents are determined and follow-up system is in place to assure corrective action is taken
- We do not conduct accident investigations

* 55. In the category Use of Personal Protective Equipment(PPE):

- All employees are trained in use and maintenance of PPE
- Training is provided for use and maintenance of PPE
- PPE use is encouraged but not provided by employer
- Annual review of program made; re-training required

- Analysis made to determine needs and PPE is provided, paid for, and required to use
- Employees informed on PPE requirements on each job and are made aware of disciplinary consequences of not using PPE
- My company is not familiar with PPE

* 56. In the category Performance Audit:

- Subjective evaluation made of safety activities to judge if they are effective
- Review safety activities regularly
- Safety performance level is evaluated at least annually
- Rating is given to each area audited
- Results are discussed with all employees
- Exceeds standards measuring performance
- Meets standards measuring performance
- No review is conducted

* 57. In the category Substance Abuse Policy:

- Company has written policy
- Company has policy
- Policy contains strict rules regarding drug/alcohol use
- Policy contains rules regarding drug/alcohol use
- All employees trained in hazards of drug/alcohol use on the job
- Company pre-employment and post accident testing
- Conducts random tests
- Has employee assistance program
- My company does not have a policy regarding drugs/ alcohol.

* 58. In the category Record keeping:

(Companies with 10 or less employees are not required to maintain an OSHA 300 log. If this applies to you, please score yourself using the criteria listed that DO NOT REFERENCE the OSHA 300.)

- OSHA 300 log maintained according to OSHA requirements (if required)
- Records are kept on accident investigations, inspection, and First Aid treatment
- Records are kept on safety training orientations, hazard, and employee absences

* 59. In the category of Test Equipment:

- Posted previous year's OSHA Form 300A Summary of Work Related Injuries and Illnesses log during month of February
- Not required to keep information for OSHA 300 log
- We choose to not keep records of injuries and accidents
- Employees required & trained in the use of test equipment (documented)
- Employee required to have a tester
- Written test equipment policy
- Semi-annual equipment calibration per individual employees
- Annual equipment check per individual employee
- Employee equipment checked occasionally
- Minimal test equipment used
- We do not test our equipment

* 60. In the category Fall Protection:

- Recognition of fall hazards
- All fall protection equipment provided
- Some fall protection equipment provided
- Documented training in use of fall protection methods and inspection
- Training and inspection is performed
- Some fall protection inspection and training is provided
- Documented annual re-training
- There is no knowledge of fall protection

* 61. In the category Material Handling:

- Supervisors are trained in ergonomic injuries & best practice training provided to encourage proper handling of materials and tools
- Training provided to encourage proper handling of materials and tools
- Tools are provided for workers
- Tools are recommended to minimize ergonomic injuries
- My company has no knowledge of ergonomics

* 62. In the category Automobile Accidents:

- Defensive driving required for companies with a fleet of one or more vehicles
- Employees who drive company vehicles are required to have good driving records
- Seat belts are required
- Company has a policy not to use mobile devices while driving
- Company does not provide automobile training

* 63. In the category Energized Work:

- Written policy with guidelines and procedures. Management has authority to approve work
- Written policy with procedures enforced
- Unwritten policy exists
- Use qualified personnel and proper equipment
- Regular testing and maintenance of equipment; training/re-training
- Use of PPE required
- Use qualified personnel and proper equipment
- Company does not have a working live policy

* 64. In the category Confined Space:

- Pre-job training and retraining
- Written policy is mandatory for all confined space work
- Written policy with procedures enforced
- Unwritten policy exists
- Utilize permit and nonpermitted systems for confined space work
- Use qualified personnel and proper equipment
- Company does not have a working live policy

65. Please note any comments here:

66. What safety resources, tools, information, etc., would you like IECRM to provide to its members?

General Contractor of the Year

Nominated by IECRM members, this award is presented to a General Contractor that demonstrates efficiency, reliability, accuracy, stability, and fairness on the job site and among trade partners.

* 67. Describe how the GC demonstrates efficiency, reliability, stability, and fairness on the job site and among trade partners.

* 68. Describe how the GC elevates or values the electrical industry, their community, or IECRM.

IECRM Alumni Award

The IECRM Alumni Award recognizes an alumnus of the IECRM apprenticeship program who has worked diligently to distinguish him/herself as a leader, mentor, and supporter of IECRM and the electrical industry. Any IECRM member who graduated from the IEC Apprentice Training Program is eligible for this award

* 81. Please list the nominee's accomplishments in the electrical industry.

* 82. Please describe how the nominee distinguished him/herself:

1) in the Contracting Industry (i.e. assists others in pursuing a career in the electrical field)

2) supporting IECRM and/or IEC National (i.e. helps the community, state, and nationwide involvement with areas of the electrical industry such as code; teaches for IECRM;)

3) demonstrates IECRM principles and goals (i.e. integrity, competency, respect, service, and collaboration)

Supporting Documents (optional)

Please include relevant supporting materials, such as references or letters of recommendations, diagrams, marketing/promotional materials, media coverage, project endorsements, videos, etc.
